portable mixers **B3000**

DITO
Electrolux

The dynamic tool for your busy kitchen!

With the Dito Electrolux portable mixers you will save time and money by using a multifunctional and easy to handle tool. Portable mixers give you the possibility to serve a great variety of high quality foods quickly and easily.

Portable mixer with stainless steel tube

The Dito Electrolux portable mixers feature the best combination of power, stability and easy handling for mixing, stirring and blending in any area of the kitchen.

Unlimited uses

- A **variety of foods** such as creams, soups, sauces, vegetable purees, pancake batter and mousses can be prepared thanks to the cutter and beater attachments.
- It can also be used for whipping creams, beating egg whites or making mayonnaise thanks to the whisk.

Easy to clean

- Cleaning made easy thanks to the **simplicity in dismantling** the complete tube, blade or whisk without tools.
- All the parts in contact with food are **dishwasher safe**.

Tube can be completely disassembled without tools to facilitate cleaning

Easy to use

- Comfortable to use thanks to its **lightweight body** and ergonomic shape of the handle.
- **Easy control of the speed rotation** thanks to the ergonomic handle, the position of the push buttons and the electronic speed variation. Just a slight press of the thumb on the selector quickly changes the speeds.
- A very simple and reliable **“clip on” patented system** is used to connect the tools to the motor unit.

Versatile

- **Longer working time** and possibility to process the thickest food thanks to the new patented air cooling system that prevents the motor from overheating.
- High versatility allowing a **great variety of recipes** thanks to the innovative electronic speed variation, from 500 to 10000 rpm during operation.

Safe

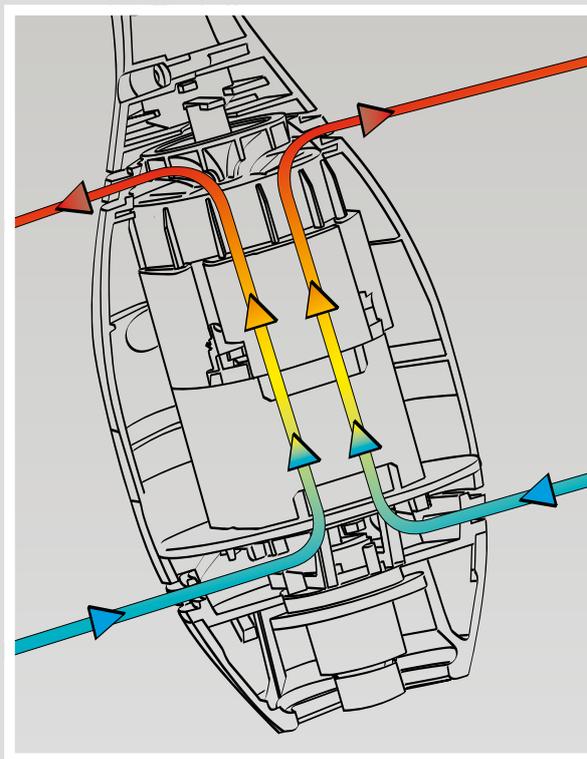

- **Avoids splashing** thanks to the special lipped design of the blade protection.
- **Reduced vibration, less noise** and wear with the SMART speed control system which limits the speed when the tool is not in contact with food.
- If the unit is used improperly, an overload alarm indicator will light.
