# FCF OVENS PROFESSIONAL, RELIABLE AND SIMPLE TO USE

---

## MAXIMUM SIMPLICITY

The FCF ovens are fitted with simple, ergonomic control panels, the knobs are easily held and the setting of all the parameters is instant.

---

## HUMIDIFIER

The presence of the humidifier helps to keep the food tender and with the right consistency, and is conducive to a minimum weight variation.

---

## PLUS

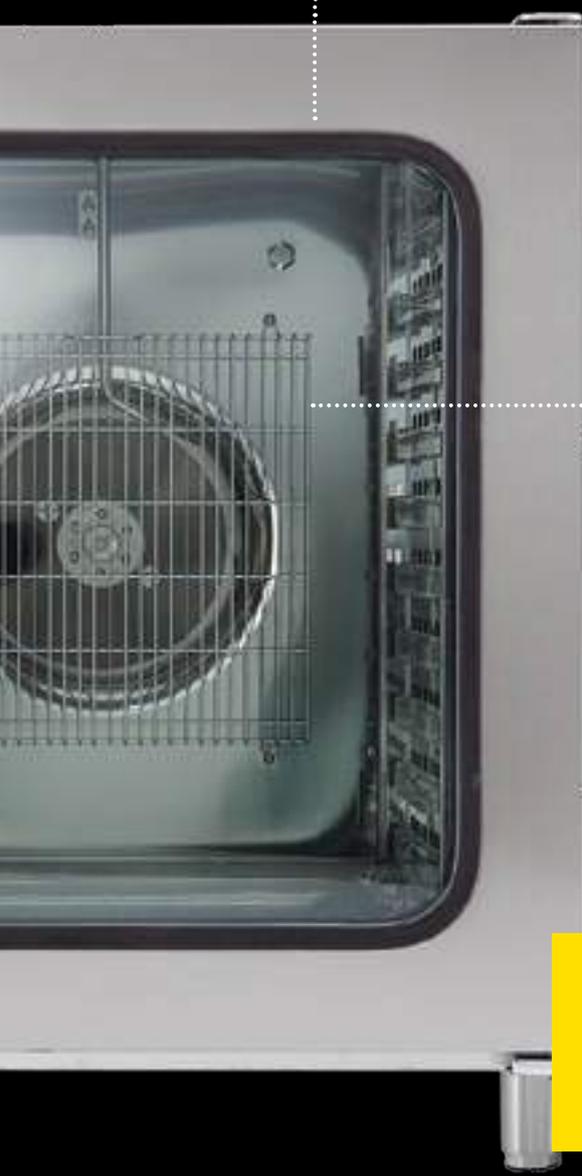

### Range

The range includes five models of a limited size to access every kitchen environment easily, but with greater potentiality for working full out.

### Optional extras

The range of optional extras is vast and complete. From the supports to equipment for movement, to specialist options, you will be satisfied with receiving specific help for your idea of cooking.

### **FLOW CHANNEL**

The “Flow Channel” system guarantees temperature distribution uniformity both on the surface of each tray and on various load levels.

### **STURDINESS AND RELIABILITY**

The main manufacturing elements are in stainless steel as are the tray supports, diffusers and aspiration walls. The double-glazed door with excellent visibility is fitted with a closing device and safety control. IPX5 protection.

### **ERGONOMICS AND VISIBILITY**

The cells in the FCF are installed for Crosswise insertion (with the long frontal side facing the cook) of the GN1/1 trays. There is easier movement and greater visibility.

# BORN TO BE SIMPLE

---

- 
- **Easy to set**
  - **Easy to use**
  - **Easy to clean**

You will become instantly familiar with FCFs. They work quickly, reducing cooking times and can be cleaned in a flash.

# EACH FEATURE IS DESIGNED TO BE EASY TO USE

## ERGONOMIC, INTUITIVE CONTROLS

The control devices on the control panel are extremely simple to use. The mains switch-selector of "Cooking functions" can be set for:

- convection cooking cycle without humidification
- convection cooking cycles with humidification and the choice of one of five levels of available humidity
- rapid cooling in cooking chamber.

Thermostat:

- temperature can be set at between 30 and 300 °C.

Timer:

- times from 0 to 120 minutes and continuous operating position.

Probe (optional accessory):

- temperatures can be set at between 0 and 99 °C.

Ignition:

- pilot burner, only on gas models. Electric igniter with single control valve for the 10 1/1, 10 2/1, 20 1/1 and 20 2/1 models. Piezoelectric igniter for the 6 1/1 model.

Heating with low humidification for stewed vegetables.

Heating with high humidification for all kinds of white meats (large pieces), bakery and regeneration of pre-cooked food.

Heating with medium-low humidification for bread-crumbed vegetables, roasted meat and fish, pies and timbales.

Ventilation without heating to quickly cool down the oven chamber after a cooking cycle.

Heating with medium humidification for all kinds of roasted meat and fish (small pieces).

Heating without humidification for cooking more or less "dry", perfect browning, au gratin and grilling.

Heating with medium-high humidification for all kinds of red meat (large pieces).

The probe (optional accessory) shows the temperature reached at the centre of the product for precise, calibrated cooking.

# SPEED IN THE KITCHEN

# TRADITIONAL COOKING

---

- 
- **Cooking simple recipes and primary flavours**
  - **Cooking with Zanussi, a historical passion for the Italian spirit**
  - **Cooking linked to tradition**

Au gratin, grilling, roasting: cooking and finishing touches that are always perfect.

# FCF OVENS SIMPLE, TRADITIONAL COOKING

## SPEED AND COOKING UNIFORMITY

Easy to use and fast cooking are FCF's strong points. These professional ovens are suitable for all kinds of cooking: from meat to desserts, even bread baking. The design of the fan and the ventilation system create a uniform air flow

so that the temperature is always even inside the chamber, even with a full load. Furthermore, it allows you to simultaneously cook different food without aromas or odours overlapping.

## TEMPERATURES UNDER CONTROL

The probe that can be requested as an optional accessory keeps you informed of the temperature at the centre of the food, at each cooking stage. The electro-mechanical thermostat can be regulated and

allows you to program temperatures from 30 to 300 °C with an optical operating indicator for the heating units and thermometer for controlling the internal temperature of the oven chamber.

## EFFICIENCY AND SPEED

The humidity in the chamber can be set at five different levels with a time splitting function. Depending on the pre-selected level, a different amount

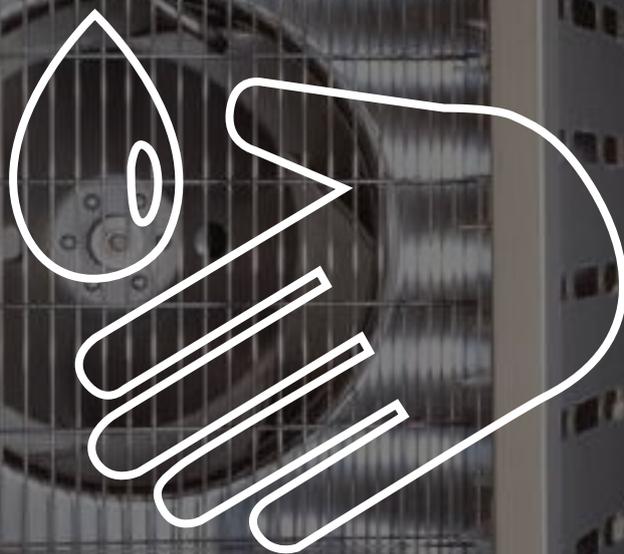

of water is injected into the chamber every minute for a few seconds.

# WINNING TRADITION

# EASY CLEANING HYGIENE DISPLAY

---

- 
- The oven cleaning is easy and fast
  - The grill supports can easily be removed
  - All the corners are rounded

It is easy to carry out in-depth cleaning in a short period of time and on a daily basis.

# TECHNOLOGY HELPS US GUARANTEE MAXIMUM HYGIENE

---

## CLEANING WITHOUT A HITCH

All the corners in the cooking chamber are rounded with no edges or joints. It is easy and fast to clean. The tray supports can be removed easily with no need for tools. The oven door has a rounded gasket, designed to avoid dirty recesses.

## DAILY WASH MADE EASIER

At the end of the day, a few moves for total cleaning: a level 5 humidification cycle (upper valve closed), a spray of detergent and then the final touch with the spray arm. Easy, complete, in-depth cleaning.

## LIME SCALE FREE WATER

In order to keep your water permanently under control, a water softener is available. An optional accessory often essential.

# OPTIONAL EXTRAS TO CUSTOMISE YOUR OVEN

---

## GN non-stick grills and trays

Non-stick pans 20, 40  
or 60 mm in height

Frying griddle with  
smooth and ribbed side

Aluminum grill

Baking tray with 4 rows  
(baguette) in perforated  
aluminum with silicon  
coating

---

## GN stainless steel grills and trays

Perforated container 20,  
40 or 65 mm in height

Grid for 4 or 8  
chickens (1,2 kg each)

Frying basket

---

### We recommend treatment with soft water

Tap water might damage your oven and your food!  
In order to preserve your oven you need water softener, a  
micro-filter and reverse osmosis filter.

# WHEN YOU NEED IT ZANUSSI IS THERE FOR YOU

---

---

## **Before and after sales, trust an expert**

Listening and collaboration: these are two key words for us. Our engineers collaborate with chefs and technicians to define exactly what the features will be of an ever more reliable and easy-to-use product.

## **Our collaborators are first and foremost consultants**

Our consultants can recommend the best machine, with the most services and which best adjusts to the client's work project specifications. The after-sales service has an extensive presence and is fast and efficient.

## **Our courses to help you discover the full potential of our machines**

Our courses are held by professionals for professionals for two reasons: to provide chefs and operators in the kitchen with updates on cooking techniques and more detailed information on our machines so they can produce more and consume less.

The company reserves the right to change technical specifications without prior warning. The photographs are not contractually binding.
