Soft release night blind / curtain

Adjustable shelves with tilting function

Open front multideck with stainless steel interior and exterior

The TEFCOLD MD-X range of open front multidecks finished in stainless is a great choice for shops, cafes, sandwich shops, butchers and convenience stores. Available in different widths between 685mm and 1885mm there is a size to suit most situations.

The unit is only 680mm deep and is ideal where there is limited floor space but you need to maximise refrigerated display area. With a base shelf and 4 adjustable shelves there is plenty of product storage space. Mirror finish stainless steel interior helps give a sense of space within the cabinet while bright white vertical LED lighting gives excellent illumination of the product (the MD1902X also has a horizontal LED light across the top).

The temperature range can be adjusted to suit your requirement including fresh meat, dairy or soft drinks or beer. Shelves can be angled between 2 and 20 degrees to give extra merchandising options (front shelf stops are required if shelves are angled). The unit comes fitted with rollers to enable the unit to be moved for cleaning, there is also an option for castors. The unit is also available in black.
