LMP600BF

The pastry roller has an important role in catering or restaurant kitchens, as it helps with the lining of pastry, rolling of dough and puff pastry work. The LMP600BF is used in restaurants and big production kitchens. It can work with any type of dough and can allow for a wide range of thicknesses and may be equipped with cutting module for croissants.

603538

FEATURES

- The LMP600BF is a floor standing belt dough sheeter mounted on wheels.
- Working width of 600 mm and two working belts 1300 mm in length.
- The rolling direction may be inverted by the movement of a joystick.
- 2 speed model.
- The cylinders may be regulated for sheets ranging from 0,1 to 34 mm in thickness.
- Rollers: 71,5 mm Ø in chromium plated steel. The accessibility of the parts in contact with the pastry/dough makes cleaning easier. The smooth surfaces are white-paint finished.
- The upper and lower roller scrapers may be easily removed for cleaning.
- The slides can be raised to save space.
- Cutting module for croissants 130x140 mm available as accessory.

- Each safety grating is hinged on the structure and is equipped with a safety micro-switch which helps to avoid injury. When the gratings raise over a particular level, the motor stops.
- Remote foot pedal to change rolling direction (available as accessory).
- Flour container fixed on the top of the machine.

- General electrical protection by fuses.
- Motor protected by a circuit breaker.
- The belts can be removed and are washable.
- Ergonomic controls situated very close together and are designed to suit natural movements.
- Emergency stop button with lock and manual re-start.
