# Teca Cioccolato

L'elegante trasparenza della Teca Cioccolato permette un'ottima visibilità della pralineria e di conseguenza una migliore esposizione e vendita del prodotto. Il microclima a temperatura controllata ed a bassa umidità consente di preservare la qualità estetica ed organolettica del prodotto nel tempo.

Pur avendo una capacità espositiva molto superiore ad un tradizionale banco pralineria, la Teca Cioccolato può essere inserita anche in spazi molto ridotti.

*The elegant transparency of Teca Chocolate gives your pralines clear visibility and improve display and sales of your product.*

*The temperature-controlled, low-humidity internal climate preserves visual and sensory qualities of your products over time.*

*Despite having a higher display surface than traditional praline countertops, Teca Chocolate is also suited for installations with limited space.*

*L'élégante transparence de Teca Chocolat permet une excellente visibilité des pralines et par conséquent une meilleure exposition et vente du produit.*

*Le microclimat à température contrôlée et à faible humidité permet de préserver la qualité esthétique et organoleptique du produit dans le temps.*

*Malgré une capacité d'exposition nettement supérieure à une vitrine de chocolaterie traditionnelle, la vitrine Chocolat peut aussi être installée dans des lieux très réduits.*

# Teca

La Teca ha una struttura in alluminio rivestita da una cornice in legno realizzabile con finiture e colori diversi. Questa scelta costruttiva permette di sostituire con semplicità sia le parti in vetro che la cornice in legno.

La Teca è disponibile nella versione a profondità ridotta (H) con condensatore statico installato nella parte posteriore e nella versione standard (M / C) dove è installato l'innovativo sistema di refrigerazione centrale basato sul posizionamento della serpentina di raffreddamento al centro della vetrina. Questo sistema consente la costruzione della vetrina centrale (C) con porte scorrevoli su entrambi i lati.

*Teca features a wooden-clad aluminum structure that comes in different colors and finishes. This design choice allows for easy replacement both of glass parts and the wood frame.*

*Teca is available with reduced depth (H) with static condenser installed in the back, and standard depth (M / C) equipped with the innovative central refrigeration system with the cooling coil in the middle of the cabinet. This system makes it possible to have a central (C) system with sliding doors on both sides.*

*La Teca a une structure en aluminium recouvert d'un cadre en bois qui peut être réalisé avec différentes finitions et couleurs. Ce choix constructif permet de remplacer facilement soit les parties en verre soit le cadre en bois.*

*La Teca est disponible en version à profondeur réduite (H) avec condenseur statique installé à l'arrière et dans la version standard (M / C) où le système de réfrigération central innovant est conçu par le positionnement du serpentin de refroidissement au milieu de l'armoire. Ce système permet la construction de la vitrine centrale (C) avec des portes coulissantes sur des deux côtés.*

La Teca è composta da due elementi distinti che sono codificati e quotati separatamente:

- Vetrina con struttura in alluminio
- Cornice di finitura in legno/MDF

La cornice frontale viene applicata con bottoni a pressione pertanto la sostituzione è semplice ed immediata.

*Teca is made of two separate elements and references:*

- Unit with aluminium structure
- MDF/wood decorative frame.

*The frame is mounted with a snap-on button system and therefore easy to replace.*

*Teca est composé de deux éléments distincts qui ont des codes séparés:*

- Vitrine avec structure en aluminium
- Cadre de finition en bois / MDF

*Le cadre/s de finition sont appliqué parmi des boutons pression donc le remplacement est simple et immédiat.*
